Examiner's Statement of Reasons for Allowance

9. Other ____.

DETAILED ACTION

Examiner's Statement

1. Applicants' amendments and arguments, filed on 09/08/2005, with respect to Claims 4 and 5 have been fully considered. The 35U.S.C.102(e) rejection has been overcome by rewritten those objected dependent claims, 4 and 5, in independent form including all of the limitations of the base claim and any intervening claims. None of the previously cited reference teaches the amended independent Claims 4 and 5.

Allowable Subject Matter

- 2. Claims 4, 5, and 12 are allowed.
- 3. The following is an examiner's statement of reasons for allowance.
 - The prior art fails to teach a method of Claims 4, 5, and 12 that specifically comprises the following:
 - -- The instant application is deemed to be directed to a non-obvious improvement over the admitted prior art of the instant application and the invention patented in Pat. No. US 6,795,509, US 6,539,047, US 6,490,265, and US 5,644,590.

The improvement comprises that -

With regard claim 4, wherein the despreading timings are adaptively determined based on the measured variation in the reception intensity in such a way as to avoid valleys of the variation in the intensity of the reception signal.

With regard claim 5, wherein the despreading timings and despreading period are adaptively changed based on the measured variation in the reception intensity in such a way as to avoid valleys of the variation in the intensity of the reception signal.

With regard claim 12, wherein operation of said despreading circuit is controlled based on the determined despreading timing and despreading chip number in such a way as to despread pilot signals adaptively and irregularly.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ted M. Wang whose telephone number is (571) 272-3053. The examiner can normally be reached on M-F, 7:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on (571) 272-3056. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
